Nueva actividad

A mobile application interface for creating a new activity. The interface is displayed within a window with a dark blue header bar containing standard window controls (close, maximize, and a minus sign). The main content area has a dark blue background with the title "Nueva actividad" in white. Below the title are three yellow rounded rectangular input fields: "Nombre de actividad", "Fecha", and "Lugar". The "Fecha" and "Horas" fields are positioned side-by-side. At the bottom of the form is a blue rounded rectangular button labeled "Guardar". The bottom of the screen features a white navigation bar with a left arrow, a blue pill-shaped button, and a right arrow.
